Reasons for Allowance

1. Claims 18-23, 25, 26, 29, 30, 32-34, 36, 37, 40-43 and 47-55 are allowed.

2. Examiner's Statement of Reasons for Allowance:

Applicant(s) invention relates to a power distribution system, and more specifically, to a DC power distribution system used in buildings.

The system has a plurality of high voltage (300 to 600 VDC) sources, which are converted and combined to feed a low voltage (23 to 48 VDC) power load, as disclosed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the combination of specific features including a plurality of DC power sources, which are connected in a specific scheme and applied for use in a building, and are of a specific voltage levels. The power distribution scheme is performing as disclosed and claimed and examiner's search failed to find a scheme with the claimed combinations of features and performance, which are not obvious and cannot be combined from the prior art of record without a hindsight.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
